

## Just Be

**Just be at home  
How can that be so hard to do?  
Most of our lives we long to slow down  
Now we can there's so much to pursue!**

**Just be apart  
From those not known and those we love  
We must keep at a safe distance  
Our hearts burst with the build-up of love**

**Just be at work  
Be it at home or on the frontline  
Whether we're fighting the virus head on  
Or we're meeting with colleagues on Zoom time!**

**Just be at school  
All this home teaching wasn't part of the deal!  
Such pressure to keep up high standards  
Know you're doing great, no matter how you feel**

**Just be patient  
Although it feels like we'll never get through  
We're told that if we follow the rules  
This time will pass, we can start anew!**

**Just be at peace  
Our heavenly Father has got this in hand  
He hears our cries for his hurting world  
He will come to heal our land**

**Just be at rest  
Give Him your worries and your fears  
Let Him hold you in His loving arms  
Let Him wipe away your tears**

**Just be His child  
That is all we're called to be  
We can trust Him with our future  
Let Him love you tenderly**

**Just be!**
